Varanasi, U.P • 8318094752 • raisatya0099@gmail.com • [Github](#) • [LinkedIn](#)

EDUCATION

M.Tech – CSE (Information Security) | MANIT, Bhopal | CGPA: 8.33 2025 – 2027
B.Tech – Computer Science & Engineering | CSJM University, Kanpur 2021 – 2025
Intermediate (12th) | CBSE Board 2020

TECHNICAL SKILLS

Languages: Python, C++, C, Kotlin, SQL

AI/ML & Data Science: Machine Learning, Scikit-learn, LLMs, NLP, Prompt Engineering, Generative AI, Pandas, NumPy

Backend & Full Stack: REST APIs, Node.js, React.js, MongoDB, Firebase

Tools & Platforms: Git/GitHub, Postman, Android Studio, VS Code, Microsoft Excel

CS Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, DBMS, SDLC

PROJECTS

Enterprise AI Research Assistant | *Python, FastAPI, LangChain, LangGraph, Gemini API, ChromaDB, Streamlit*

- Engineered a Retrieval-Augmented Generation (RAG) application using FastAPI, LangChain, Google Gemini, and ChromaDB.
- Implemented semantic document retrieval through embeddings, intelligent chunking, and vector search.
- Designed modular AI workflows with LangGraph, REST APIs, Docker, and Git.

AI Mock Interview Platform (PrepWise)

- Engineered an AI-driven mock interview platform with Next.js, TypeScript, Firebase Authentication, and Cloud Firestore following a client-server architecture.
- Integrated Gemini API and Vapi AI for dynamic interview generation and low-latency voice interactions using WebRTC.
- Optimized application reliability by debugging API integration, Firestore indexing, authentication workflows, and dependency compatibility issues.

RESEARCH

Consent-Based Secure Data Sharing System for Android Applications | *Kotlin, Android SDK, Firebase Firestore, AIDL, Android Services, JSON, SharedPreferences, Git*

Ongoing

- Developed a reusable Android SDK to enforce user consent before third-party data sharing using policy-driven validation.
- Integrated Firebase Firestore and AIDL services for distributed consent management, cross-application communication, and centralized policy storage.
- Built a modular consent validation engine leveraging JSON-based DSS policies and Android Services to support secure, extensible data-sharing workflows.

EXPERIENCE

SDE Intern – TechNova Solutions Pvt. Ltd.

June 2024 – July 2024

- Designed and developed React.js modules and scalable REST APIs with Node.js, Express.js, and MongoDB for a production fintech web application.
- Resolved 10+ UI/API bugs using Postman and collaborated in a 5-member Agile team using Git and Jira — sprint planning, code reviews, and cross-functional syncs with product and design.
- Maintained technical documentation of API contracts and module architecture to support maintainability and team onboarding.

ACHIEVEMENTS & CERTIFICATIONS

- GATE 2025 Qualified – Computer Science & Information Technology.
- Tata iQ Data Analytics Virtual Experience (Forage) – Credit delinquency prediction: EDA, ML modeling plan, and stakeholder reporting.
- Solved 150+ problems on LeetCode, strengthening Data Structures & Algorithms and problem-solving skills.
- Certification – Emerging Trends in Cybersecurity, Threat Intelligence, and Digital Forensics.
